CHICAGO GRAIN. By JOSEPH F. PRITCHARD. Chicago. May 31.-Many traders were disap-

tary Inspector Robert L. Walker for his personal assistance in the recent clean-up campaign, and it was decided to engage a team during the summer to continue the removal of rubbish and tin cans. Sheriff Howard Fields was called upon for remarks regarding speeding of automobiles on Wilson boulevard, and he will appoint several special officers from Clarendon to regulate the traffic. Employment of a motorcycle officer was authorized at the last meeting of the Board of Supervisors, but the compensation was not sufficiently attractive to invite any applicants, and the association will recommend the provision by the County of a motorcycle for the appointee.

The discussion drifted into a spirited debate on the dog question, and steps will be taken for a stricter enforcement of the existing law which is ample to take care of the situation provided it is enforced. This comes under the game warden who will receive recommendations on the subject from the board of supervisors.
